

HANDLING OF BULK, BREAK BULKS & HEAVY LIFT

# DEEP-SEA TERMINALS FOR DRY BULK AND MULTI-PRODUCT LOGISTIC

## DRY BULK DIVISION

Joint Venture established in 2008 between Sica Atlantique and Maritime Kuhn, EVA runs 3 terminals representing a total berth length of 760 metres, and a surface of 25 ha of platforms and warehouses.

Our 3 terminals, equipped with cranes, handling devices and specific storage facilities can berth the largest ocean vessels and carry out handling operations in the best conditions.

Closeness, adaptability, service minded these are the qualities that make EVA your favourite logistic partner on the port of La Rochelle-Pallice.

## OUR CLIENTS

**IMPORTERS  
EXPORTERS**

**INDUSTRIES USING: clinker and cement products, bulk energy materials, aggregates and minerals, animal feed products, recycle and biomass products, heavy lifts, windmill**

## OUR STRENGTH

EVA takes benefit of the experience of its two shareholders: Sica Atlantique, the 2nd French grain terminal and leading operator at La Pallice port and the Groupe Maritime Kuhn, who is acting in all the ports on the Atlantic coast.

Our terminals benefit of a deep sea port facility as well as important length of berth and connected platforms.

Quality minded HACCP, Qualimat, GMP+B3 certifications

Our mission is to provide services to industries located in the extended hinterland of the port

Certificates.
