

PORT HANDLING

## THE ONLY OPERATOR WHO OFFERS A TAILOR-MADE SERVICE

■ In the logistics chain, the added value of port transit relies on specialised terminals, specially adapted storage systems, optimum loading and unloading, a rapid turnover of land transportation and knowledge of the product being handled.

■ An effective response to your requirements, specifications rigorously respected transparency guaranteed

■ More than the offering of a simple service, **DELPECH MARITIME** actively engages with its customers to share a vision of the market, the logistics, the possible optimizations and sources of added value for the goods in transit, as bagging for instance.

## OUR CLIENTS

- **MANUFACTURERS**
- **COMMODITY TRADERS**
- **FREIGHT FORWARDERS**
