

### BULK LIQUID TERMINAL

# YOUR PORT STORAGE SOLUTIONS ON THE ATLANTIC COAST

■ Raw materials, components or additives, liquid bulk products are essential to multiple sectors in industry, agriculture and energy. For imports or exports, everything passes through the port facilities to the operating sites.

■ We care about the integrity, quality and security of our products. Client satisfaction is our priority.

■ We provide tailor-made solutions in our core competences and our land reserve is a real asset to develop partnerships.

■ A project, an idea, **SISP** can provide you solutions!

## OUR CLIENTS

- **MANUFACTURERS**
- **IMPORTERS / EXPORTERS**
- **DISTRIBUTORS**

## OUR JOBS

- **TOTAL RECEPTION / STORAGE / SHIPPING CYCLE**
- **IMPORT OR EXPORT**
- **6 COMPLEMENTARY SITES**  
(FOOD AND FEED PRODUCTS, FERTILIZERS, PETROLEUM, PRODUCTS, LUBRICANTS, CHEMICAL PRODUCTS, BIOFUEL)
- **DEDICATED TANKS AND CAPACITIES SUITABLE FOR ALL VOLUMES**
- **LARGES FLOWS (100 TO 700 M<sup>3</sup>/HOUR)**
- **MULTIMODAL PLATFORM**

## OUR STRENGTHS

- For over 80 years our expertise has been the basis of our savoir-faire. We provide personalised solutions to our customers' specifications by offering a wide range of value enhancing services for products stored:
  - conditioning
  - homogenisation, dilution
  - reheating
  - filtration
  - blending
  - additivation
- Whatever your request, the product or the volume, our objective is quality: dedicated pipelines, anti-pollution and anti-contamination processes, cleaning and scraping apparatus... Without forgetting stopover time, which is constantly minimised, thanks to the port of La Rochelle-Pallice's natural nautical characteristics and our berth.
